## A Lifetime of Experiences

Studying abroad presents the opportunity to learn new cultures, improve language fluency and make new friends that last a lifetime.

*"The MBA (International) was a turning point in my career, equipping me with the skills necessary to excel in a commercial environment, both in Australia and overseas. Having the opportunity to participate in the exchange program at the Vienna University of Business and Economics was extremely rewarding, allowing me to meet and work with people from different backgrounds and cultures."*

Robert Sills, MBA (International)

*"My incredible exchange trip to Copenhagen Business School was both a window and a mirror: a window into quirky Scandinavian culture and the way business is taught and done in Europe, as well as a mirror reflecting how the UWA Business School prepare you for the world of management through the discipline of reading widely and fostering an open, tolerant mindset. Having access to some of the best lecturers in Europe, including those from INSEAD and other prestigious schools, was incredibly enriching."*

*Don't sit around waiting for life to happen – get on an exchange and supercharge your studies!"*
