

### Do you have trouble with:

- Depression
- Anxiety
- Grief
- Stress
- Sleep disturbances
- Anger
- Eating disturbances
- Weight management
- Quitting smoking
- Phobias

The Robin Winkler Clinic provides individual and group therapy as well as neuropsychological assessments for adults and children with a wide range of difficulties.

Provisionally registered postgraduate students carry out treatment under the expert supervision of experienced clinical psychologists and clinical neuropsychologists.

### Office hours:

Mon–Wed 9am to 8pm,  
Thu–Fri 9am to 5pm

### Where to find us

The Robin Winkler Clinic is located on the first floor of the Third General Purpose Building (GP3) on Myers Street, Crawley. Ticket parking is available on Myers Street and Parkway. From Myers Street, walk up the ramp (opposite No. 31) to the walkway between the Sanders Building and GP3. Enter through the glass door on the left.

We're here to help you!

### About the Clinic

The Robin Winkler Clinic is a psychology unit within the School of Psychological Science at The University of Western Australia. It is staffed by provisionally registered psychologists being supervised as part of their postgraduate training in Clinical Psychology and Clinical Neuropsychology. Staff actively contribute to advances in psychological knowledge and scientifically based treatment methods. All client information is kept securely and confidentially within our clinic. De-identified data may be collected and may be used for research with appropriate ethics approval.

#### What services do we offer?

##### Individual therapy

Psychological treatment for adults and children with a wide range of difficulties.

##### Neuropsychological assessment

Appraisal of cognitive, emotional and behavioural functioning based on performance across a wide range of cognitive, intellectual, motor and sensory tasks.

##### PATCHES Paediatrics/ Autism Association clinics

With a special focus on neurodevelopmental conditions such as Foetal Alcohol Spectrum Disorders and Autism Spectrum Disorders, these clinics help translate research into clinical practice.

##### Group therapy

A variety of group therapy programs are run throughout the year including a smoking cessation group, a blood injury and injection phobia group and the "Cool Kids" social anxiety group. These programs use the latest research in a supportive environment to help individuals overcome life challenges. Our groups are advertised on Facebook.

#### What are our fees?

**Individual therapy:** A 50-minute session costs \$30.

The first assessment session is usually one-and-a-half hours and the fee is \$35. Our therapy team will develop a treatment plan with the number of sessions tailored to meet your needs.

**Neuropsychological assessment:** The cost of a neuropsychological assessment (including an initial interview and a feedback session) and report is \$320, payable at the first session. Any additional sessions will be charged at \$35 per visit. Assessments for Family Court or other legal purposes cannot be performed at the Robin Winkler Clinic.

**Group therapy:** Following an initial assessment, the group will run for a series of two hour sessions, plus a follow-up after completion. Group fees range from \$6-\$30 per session.

**PATCHES Paediatrics/ Autism Association clinics:** To claim Medicare rebates you will need a referral from your General Practitioner or medical specialist. In addition to the Medicare rebate, there is a gap fee which can be discussed.
