

THE UNIVERSITY OF  
**WESTERN  
AUSTRALIA**

Institute of  
Agriculture

# 2022 Postgraduate Showcase

You are invited to hear UWA's top postgraduate students present their research achievements in agriculture and related areas.

Opening address by UWA Deputy Vice-Chancellor (Research) Professor Anna Nowak.

Afternoon tea provided.  
All are welcome to attend.

## Presenters

### Md Khairul Islam

Exploring High-Performance Thin-Layer Chromatography (HPTLC) as a novel analytical approach for honey analysis

### Tanushree Halder

Unravelling the genetics of wheat root system architecture

### Joe Gebbels

Improving productivity reduces methane intensity but increases the net emissions of sheepmeat and wool enterprises

### Alaya Spencer-Cotton

Stakeholder assessments of future scenarios for agricultural land in the Fitzroy River Catchment

### Sajeevee Kadawatha Dina Mithrage

Remediation of iron ore mine tailings by growing perennial ryegrass with organic amendments

### Bhagya Dissanayake

Uncovering the hidden adaptations of bread wheat roots under salinity stress

### Isobel Sewell

Utilising insect protein in freshwater aquaculture
