

How do I connect my ORCID iD to the Repository?

Adding and connecting an existing ORCID iD to your Repository profile enables the automatic export of your research output information, as well as limited profile information, from the UWA Profiles and Research Repository to your ORCID record.

Login to start:

1. Go to the [UWA Profiles and Research Repository](#)
2. Click on **UWA Profiles and Research Repository login**
3. Log in with your UWA login (Pheme) details

1. Click **Edit profile**

2. Click **Create or Connect your ORCID ID**

3. A **Connect with your ORCID ID** information screen will appear, advising that you will be taken to the ORCID website to complete the registration. It will also describe the content that will be exported from the Repository to your ORCID record. Click **Proceed**

Connect with your ORCID ID

You will now be directed to the ORCID site where you can generate your ORCID ID (if you don't already have one) and/or authorise the export of content (e.g. research outputs) from the Repository to your ORCID record.

The Repository will automatically update the following content overnight. If you want to export content immediately, click 'Export':

- Institutional organisational affiliation
- Other personal identifiers (e.g. Scopus author ID, Researcher ID)
- Your Repository profile URL
- Your research outputs, where:
 - the publication state is either 'E-pub ahead of print' or 'Published'
 - the visibility of the record is 'Public - No restriction'
 - the workflow status is at least 'Approved'

4. You will be redirected to an ORCID login page where you will be asked to sign in with your email address and ORCID password.

5. You will then be asked to allow the UWA Research Repository to access your ORCID record. Click **Authorize**. This authorisation enables your Repository research output information to be exported to your ORCID record.
6. You may choose to revoke this authorisation at any time by logging into your ORCID account. Go to your **name** at the top of the login screen and select from the drop down menu, navigating to your 'Account settings' and clicking on **Revoke Access** under 'Trusted organizations'.
