Biography

Marsha is a geologist with over 20 years of experience in teaching and research. Geologists study the solid and liquid matter that constitutes the Earth as well as the processes that shape it.

Working as a researcher, Marsha has attracted nationally competitive research funding in Australia, South America and Switzerland. She was the Principal Geologist for Rio Tinto in Santiago Chile between 2009 and 2014 and has lectured for various graduate courses such as Masters of Geoscience and Graduate Diploma geology courses here at UWA as well as Curtin University. In addition, Marsha has also taught externally for the Geological Sciences Masters programs at Freie Universität Berlin.

Teaching philosophy

My teaching philosophy is based upon being honest, competent, and up to date on new ideas and theories in my areas of expertise. I seriously and carefully evaluate which materials the students should learn. I present my lectures with enthusiasm and clarity. I try to build a relationship with each class, within which instruction takes place. I see each student as an individual and assume my share of the responsibility for the student's education. This includes a policy of always being available for student questions at anytime throughout the day. In addition to my
