

How do I remove a Fingerprint term or turn off the Fingerprint?

Fingerprint terms are generated from your publication titles and abstracts, the titles and descriptions of your prizes, and the text in the **Research** field of your profile. These terms will be visible on your public profile under the **Fingerprint** tab but you may remove individual terms or turn off the entire **Fingerprint**.

*These instructions describe the process of logging into the UWA Profiles and Research Repository and demonstrate how you can remove certain **Fingerprint** terms from your profile, or turn off the **Fingerprint** feature entirely.*

Login to start:

1. Go to the [UWA Profiles and Research Repository](#)
2. Click on **login to the UWA Profiles and Research Repository here**.
3. Log in with your UWA Office365 login details.

4. Click the **Save** button at the bottom of the screen.

To turn off the Fingerprint feature entirely, follow steps 1-2 above, then toggle the blue **On** button to **Off**.

Remember: When updating fields in your profile, the **Create or Update** button will apply your changes, but you will still need to press the blue **Save** button to retain any changes (this is always located at the bottom of the record window).
