

Wetlands dilemma

Question 1

- Which land would you purchase?

Question 2

- Is the offer by the 'night-cart man' worth taking up, or not?

Question 3

- Should you purchase the insecticide and use it on the land, or not?

Question 4

- Should you stop using the bore and find an alternative, or not?

Question 5

- Who should you sell the land to?
- How does the history of land use affect your decision?
