The Faculty requires this information as applicants who receive permanent residency during the application year cannot be considered for an international place and instead must compete for a domestic place. Applicants in this situation must complete the GAMSAT (as domestic students can only sit the GAMSAT) and even if they have already been interviewed for the MD and/or DMD as an international applicant, they will still need to have met the minimum thresholds for domestic applicants in order to be ranked for a position in the course. If applicants meet the minimum requirements as a domestic applicant and are competitively ranked, they can be made an offer for a domestic position. In order to be considered for a domestic place the Faculty needs to be made aware of the situation as soon as possible. In order to be considered for a domestic place the Faculty will require confirmation of permanent residency before October 1st 2018.
