BOARD OF WESTERN AUSTRALIA AND
RECOGNISED INTERNATIONALLY BY THE
COMMONWEALTH ASSOCIATION OF ARCHITECTS
(CAA) AND THE CANBERRA ACCORDS.

Master of Architecture

Construct your career with a Master of Architecture.

The Master of Architecture emphasises the application of concepts to the design of specialised building projects, with a focus on context, environmental performance and sustainability.

You complete core units in technology, practice and design, and then direct your study within a range of option units in technical and critical studies streams.

Professional accreditation

This professionally accredited degree satisfies the academic requirements to become a registered architect and is recognised internationally by the Commonwealth Association of Architects (CAA) and the Canberra Accords.

Admission requirements

To be considered for admission to this course, an applicant must have:

- (a) a bachelor's degree, or an equivalent qualification, as recognised by UWA; and
- (b) the equivalent of a UWA weighted average mark of at least 60 per cent.

Career opportunities

Our master's course equips you with the skills you need to go on to become an architect in a range of roles across private and government sectors, both in Australia and internationally.

There are also other opportunities in related areas of urban design, landscape architecture, architectural conservation, city and regional planning, architectural illustration and modelling, building information modelling, furniture design, project management, research into construction materials, building and the built environment and academia.

Course structure

Conversion

Students who have not completed a Bachelor of Arts with majors in Architecture or equivalent as recognised by the Faculty, must complete relevant conversion units up to the value of 72 points.

Core units

- Architectural Technology, Structures and Services
- Project Implementation and Documentation

- Architectural Practice
- Graduating Portfolio

For additional course structure details, visit handbooks.uwa.edu.au

Direct Pathways

If you're interested in this area of study, set your career in motion with an Architecture Direct Pathway.

study.uwa.edu.au/courses/architecture-pathways

Further study

Further postgraduate study options include the Master of Urban Design, Graduate Certificate in Architectural Conservation and Master of Building Information Modelling.

* Students admitted to the course having completed a undergraduate degree in Architecture will be required to complete two years of full-time or equivalent study. Students without an architectural background will complete up to 3.5 years of full-time or equivalent study.

2019 Course fee (per year): AUD\$36,700

Master of Architecture alumna - Sandy Anghie

"The skills I acquired at UWA and after graduation are invaluable, both in architecture and for my not-for-profit board roles. After eight years as a corporate tax lawyer, first in law firms then at EY, in 2006 I decided on a career change and returned to UWA to study architecture. In 2012, I graduated from UWA for the second time with a Master of Architecture. While I love architecture and it is something I always wanted to do, I definitely have no regrets about studying law and commerce first."
