A unique campus

Located on a river bend in Crawley just minutes from the city of Perth, UWA is often described as one of Australia's most picturesque campuses.

uwa.edu.au/campus-tour

▲ Relax in heritage-listed gardens and open courtyards

◀ Tour UWA and climb the iconic clock tower

Watch a movie on campus at Somerville Auditorium ▼

▼ Kayak, row or sail on the Swan River

▲ Enjoy UWA's mix of grand architecture and modern facilities

Socialise at cafés on campus and shop at nearby supermarkets ►

◀ Visit the stunning Cottesloe Beach 6km away

Enjoy nature at Kings Park, ►
one of the largest inner-city parks
and in the world

Try different cuisines at one of the many
exciting food trucks on campus ▼

The Albany Centre

UWA also has a high-tech regional campus in the Great Southern town of Albany – a four-hour drive from Perth. Here you can experience all that regional Western Australia has to offer while studying at university.

For more information visit
albany.uwa.edu.au/courses

Student life

At UWA, we like to think of ourselves as more than a university. We're a community, made up of passionate and dedicated staff, students and alumni. Discover a new culture, meet new people and have fun while you complete your studies with us.

UWA Student Guild

Student life at UWA is vibrant, with social activities on campus organised by the UWA Student Guild, the representative student organisation. The UWA Student Guild has a reputation for being one of the most active in Australia. It organises countless activities including festivals, workshops, end-of-semester parties, networking opportunities, the Guild Ball (formal dance) and the National Campus Band competition, and runs more than 140 clubs and societies.

uwa.studentguild.com

The Guild also provides student representation, with staff on hand to give extra support to you on academic, financial or welfare matters affecting your study. The free Guild membership entitles students to great discounts

on campus and at restaurants, shops, activities and services around Perth.

The Guild Village

The Guild Village is a hive of activity and houses shops, food outlets, a medical centre, hairdresser, bank and other useful student amenities. The regular market day is the place to buy inexpensive, locally made clothes, jewellery and more.

Volunteering

The Guild Volunteering office helps students find their perfect volunteering role. Many opportunities may be added to your degree transcript and you can choose to work in a range of fields (sports, education, arts, environment, health and more). These opportunities range from drop-in sessions to one-day events and ongoing projects. The office

also runs weekend volunteering trips, which are fun, affordable ways to see more of WA.

The Postgraduate Students' Association (PSA)

The PSA represents postgraduate students on campus as well as holding a number of events throughout the year including Research Week, Careers Week, sundowners, cocktail parties, afternoon teas, a quiz night and a sports day. The PSA also runs a grants scheme for small postgraduate group activities. All postgraduate students automatically become members upon enrolment.

uwastudentguild.com/psa

Whether you play sport to stay active or to socialise with friends, you can unleash your inner athlete with UWA Sport.

- Access more than 50 group fitness classes a week or use the state-of-the-art equipment and multiple training zones with your gym membership
- Visit the Watersports Complex on the beautiful foreshore at Matilda Bay – home to the UWA Boat Club and Outdoor Club
- There are swimming pools and tennis and squash courts, and the UWA Sports Park with large open playing fields is nearby
- Take part in numerous social sports, clubs and fun programs
- Join a range of activities from stand-up paddle boarding, to rock climbing and yoga to name a few, or improve your swimming skills or learn first aid
- The Australian Institute of Sport (AIS) endorses UWA as a member of the national Elite Athlete Friendly University network
- Take on another faculty or college, or choose to represent UWA at high-level sporting competitions such as Australian Uni Games sport.uwa.edu.au

Design your degree

UWA courses are designed to give you a competitive edge. Throughout your studies you will gain practical experience and learn valuable skills such as effective communication, problem-solving and research. These key competencies enable you to adapt to an ever-changing and rapidly developing world and help future-proof your career.

Build a degree that keeps your options open

Our flexible course structure enables you to choose units of study across different subject areas, and discover your interests in fields as diverse as Accounting and Zoology before deciding on a career.

Once you've discovered what you're passionate about in your first year, you then specialise in your chosen area of study by selecting one or two majors.

Course building blocks

Major: This is the subject area you choose to specialise in within your bachelor's (first) degree.

Core units: A core unit is one that must be taken to complete your chosen major. Some majors have set core units while others allow you to choose from a list of core unit options.

Complementary units: These are units which go hand-in-hand with your major. They are designed to provide you with additional knowledge to help you complete your major.

Broadening units

Broadening units add a valuable dimension to your studies and provide you with knowledge beyond the fields in which you choose to specialise. Undertaking broadening units is a requirement of the University's undergraduate degree course structure.

Broadening units fall into two categories, A and B. You are required to take four broadening units of which at least one must be a Category A broadening unit (up to two Category A broadening units may be undertaken from within the knowledge area of your degree-specific major) and at least two broadening units (Category A or B) must be undertaken from outside the knowledge area of your degree-specific major.

Category A includes units:

- (i) with a focus on the globalised and culturally diverse environment
- (ii) in languages other than English
- (iii) offered by the School of Indigenous Studies
- (iv) undertaken for credit as part of a Student Exchange or Study Abroad program, where the unit is undertaken at a host institution
- (v) with mathematics and/or statistical theory as their core teaching content

Category B comprises units from any discipline outside the knowledge area of your degree-specific major (subject to meeting unit prerequisites).

Elective units: Also known as 'free choice' units. These units give you a great opportunity to explore other areas of interest and expand your knowledge.

Our courses are adaptable so you can choose to focus on a specific career, pursue your personal interests, or both.

Pursue one or two majors

Concentrate on a single major if you are already focused on a specific career or area of interest. If you want to keep your options open or have more than one passion, you can complete two majors in the same time at no extra cost.

YR1	SEM 1	MAJOR	COMPLEMENTARY	BROADENING A OR B	2ND MAJOR / ELECTIVE
	SEM 2	MAJOR	COMPLEMENTARY	BROADENING A OR B	2ND MAJOR / ELECTIVE
YR2	SEM 1	MAJOR	COMPLEMENTARY	BROADENING A OR B	2ND MAJOR / ELECTIVE
	SEM 2	MAJOR	COMPLEMENTARY	BROADENING A OR B	2ND MAJOR / ELECTIVE
YR3	SEM 1	MAJOR	MAJOR	2ND MAJOR / ELECTIVE	2ND MAJOR / ELECTIVE
	SEM 2	MAJOR	MAJOR	2ND MAJOR / ELECTIVE	2ND MAJOR / ELECTIVE

■ Degree-specific major unit ■ Complementary unit ■ Elective unit ■ Broadening unit

Still working it out?

If you're not sure what path to take in your first year, you can try different areas of study.

You could study subjects as diverse as Marine Science, Sport Science, Chinese and Management. This would give you a good cross section of subjects and help you work out what you're best suited to and enjoy the most. Then, in your second year, you'd be in a great position to confidently choose a major in one of these areas. The units studied in your first year will count towards your degree and when you finish your studies, you'll not only be job-ready but have a diverse skill set that will benefit you throughout your career.

Choosing Sport Science as a major

YR1	SEM 1	SPORT SCIENCE	MARINE SCIENCE	CHINESE	MANAGEMENT

The Bachelor of Arts degree at UWA offers you a unique learning experience with the flexibility and depth to pursue your passion while gaining the skills for a successful career in a diverse range of fields.

Studying the Bachelor of Arts at UWA allows you to take courses from a wide range of subjects, from the earliest days of humanity and history in Archaeology or Classics and Ancient History, to cutting-edge technologies of performance and creativity in Music Studies, Architecture or Communication and Media Studies.

Hone your knowledge and skills by selecting from 29 majors spanning the social sciences, humanities and creative arts.

Tackle the great challenges facing society with a major in Philosophy, Political Science and International Relations or Anthropology and Sociology. Develop critical cultural engagement with a major in History, English and Cultural Studies or our wide range of regional specialisations. Or make a difference to your community with a major in Psychology, Human Geography and Planning or Work and Employment Relations. Participating in the innovative language programs will equip you with both linguistic skills and enhanced cultural understanding.

Studying the Bachelor of Arts at UWA sets you on the path to becoming a true global citizen. You can study abroad at a partner university for a semester or choose from our range of innovative short international study units. You can also learn a new language, with nine Asian and European languages to choose from.

Why study Arts?

Studying Arts equips you for every aspect of life. It enables you to discover your talents, interests and abilities, and develop them fully. You will acquire skills such as critical thinking, communication, reasoning ability and problem-solving. These proficiencies are all highly sought after and valued by employers, and will provide you with many future career opportunities.

Beyond your Bachelor of Arts

Arts graduates are equipped with a well-rounded education in addition to excellent communication, research and technical skills that allow our students to enter many different careers. You could also choose to undertake postgraduate study for a competitive edge in a rapidly changing and ever-growing workforce. Successful UWA graduates include politicians, ambassadors, authors, composers, journalists, anthropologists, historians, policy advisers and teachers, to name a few.

Career-ready

As part of your Arts degree you can choose to undertake the Arts Practicum, which provides the opportunity to work on a supervised project in a workplace of your choice, while earning credit towards your degree. This helps you gain the skills needed to launch a successful career.

Bachelor of Biomedical Science

NEW
BACHELOR
DEGREE
IN 2018

13 degree-specific majors

- Aboriginal Health and Wellbeing
- Anatomy and Human Biology
- Biochemistry and Molecular Biology
- Exercise and Health
- Genetics
- Medical Sciences¹
- Microbiology and Immunology
- Neuroscience
- Pathology and Laboratory Medicine
- Pharmacology
- Physiology
- Population Health
- Science Communication

The Bachelor of Biomedical Science is a new and exciting undergraduate degree designed to meet growing global demand for graduates with health expertise. You can specialise in one or two of the 13 majors available in this degree or combine a Biomedical Science major with a major from Arts, Commerce or Science, in line with your unique interests and career goals.

As a Biomedical Science student, you'll be taught by world-class researchers in cutting-edge laboratories and tutorial rooms, at UWA's main campus and at the Queen Elizabeth II Health Campus (QEII). After graduating this course, you could pursue a career or further study in areas as diverse as clinical practice, medical technology, medical research or public health.

¹Quota restricted major

Why study Biomedical Science?

The Bachelor of Biomedical Science is a practical degree that equips students with the essential knowledge and skills to impact the health of people and populations. You will first gain a sound understanding of how the human body functions in healthy and diseased states, barriers to healthcare and methods for treatment. This degree could lead you to a career impacting public health policy or designing medicines to alleviate symptoms or vaccines to prevent diseases.

Beyond your Bachelor of Biomedical Science

Graduates can seek employment in a range of health-related industries, including research, pharmaceuticals, public health and medical technology. Preventative healthcare opportunities will continue to grow as the populations of countries such as Australia, Japan and many parts of Europe increase in age. Students wishing to become practitioners in their related disciplines will need to complete further postgraduate studies.

Career-ready

You'll be given the opportunity to participate in community engagement, through structured visits to health organisations, voluntary work experience programs, field trips and assignments linked with the health sector. You'll also gain critical skills in laboratory practice and research.

WORLD UNIVERSITIES (ARWU)

Bachelor of Commerce

8 degree-specific majors

- Accounting
- Business Law
- Economics
- Finance
- Human Resource Management
- Management
- Marketing
- Professional Economics (double major)

Real-world experiences are at the heart of the Bachelor of Commerce. This degree develops your analytical, communication and problem-solving skills, providing you with a global perspective on business and preparing you to pursue a career within the business, government or not-for-profit sectors.

Learn from leading academics, develop high-level industry networks and graduate with a degree that can take you anywhere in the world. UWA's internationally accredited Business School celebrates strong links with the business community, allowing for insights into leading industry practice.

Whether you're hearing from an industry guest lecturer, visiting a careers-related event or attending an exclusive lunch with corporate executives, you can confidently apply your skills in real-world situations.

Why study Commerce?

The Bachelor of Commerce focuses on the factors that drive economic behaviour at both an individual and organisational level. Your studies will equip you with the analytical, communication and problem-solving skills to effectively identify issues, source information and find efficient and practical solutions. The course has been tailored in consultation with representatives from leading local and international organisations, ensuring you will graduate with an industry-relevant degree.

With a multitude of Business School student societies, you can attend professional development, networking and social events, all while taking part in a student-managed investment fund, leading a social entrepreneurship project or launching your own start-up enterprise.

Beyond your Bachelor of Commerce

As a Commerce graduate, you'll have the knowledge and skills to tackle some of the greatest challenges facing the world. You could find yourself working at a global advertising agency, starting your own social enterprise or entering the world of corporate finance, among other career destinations.

Career-ready

Apply your business knowledge to real-world situations by undertaking a business practicum or by taking part in national and international competitions run by leading organisations.

Business students can also choose to participate in a range of student societies. For example, you could work on a project to empower local communities through entrepreneurial and education outreach initiatives.

Bachelor of Science

25 degree-specific majors

- Agricultural Science
- Anatomy and Human Biology
- Biochemistry and Molecular Biology
- Botany
- Chemistry
- Computer Science
- Conservation Biology
- Data Science
- Engineering Science (double major)
- Environmental Science
- Exercise and Health
- Genetics
- Geographical Sciences
- Geology
- Marine Science
- Mathematics and Statistics
- Natural Resource Management
- Neuroscience
- Physics
- Physiology
- Psychological Science
- Psychology (double major)
- Science Communication
- Sport Science
- Zoology

A key focus of the Bachelor of Science is understanding and improving the natural world through systematic observation, experimentation, modelling and calculation.

The Bachelor of Science gives you the opportunity to harness the skills and knowledge necessary to make a real contribution to the global challenges facing humanity.

Why study Science?

Scientists study the nature of the universe, its properties, the life that exists within it and the laws that govern the behaviour of all matter. As a student you'll investigate the big issues confronting our planet including climate change, diagnosis and treatment of disease, healthy lifestyles, food sustainability and conserving biodiversity. The importance of science in determining the wellbeing of our society is recognised by industry, business and government. You will acquire skills that make you highly employable, such as critical thinking and problem-solving.

Beyond your Bachelor of Science

The skills you gain when studying the Bachelor of Science form the foundation of a great science education and are highly valued and sought after by employers. These include reason, logic, observation, analysis, resourcefulness, communication, creativity, imagination and experimentation. Science graduates are in demand worldwide with job opportunities across a wide range of sectors. If you choose to pursue further study, a master's degree by research or a Doctor of Philosophy (PhD) will enable you to move into a career in scientific research.

Career-ready

Gain academic credit for pre-approved work placements when studying towards your bachelor's degree. Science practicums bridge the gap between theory and practice by providing hands-on experience within a workplace. Students also have the opportunity to gain valuable networking experience with industry professionals.

Bachelor of Philosophy (Honours)

The Bachelor of Philosophy (Honours) is a challenging and research-oriented four-year degree. The course offers an innovative curriculum with an individually designed academic program, focusing on your chosen area of specialisation.

In addition to innovative research project work, the course includes a scholarship-supported Study Abroad experience, academic mentoring, high-level communications training, professional skills development and an on-campus residential experience prior to the start of first semester (usually in the week prior to orientation).

This course is unique in Western Australia and represents an exciting and distinctive experience for high-achieving students.

Why study the Bachelor of Philosophy (Honours)?

The Bachelor of Philosophy (Honours) course ensures you develop research and communication skills that prepare you for the challenges of achieving international standards of excellence. While many graduates will choose to pursue further studies or a career in research, the intensive focus of the degree on developing analytical, teamwork and communication skills will ensure you are highly employable upon graduation.

What can I study?

The Bachelor of Philosophy (Honours) gives you the freedom to choose a major from any field of study within Arts, Biomedical Science, Commerce or Science. It is an integrated honours degree with research embedded throughout the four-year course and the opportunity to learn a language.

Throughout your course you will participate in collaborative and interdisciplinary research projects, work closely with a research mentor from your chosen field of study, develop your own research project with an academic supervisor, present your research orally, produce a research dissertation, undertake an overseas study experience, and have the opportunity to meet international research leaders visiting the University.

Entry requirements

Entry to this course is extremely competitive and places are limited. Before nominating your degree-specific major (and second major where relevant), you must have satisfied any specified prerequisites for the major.

Beyond your Bachelor of Philosophy (Honours)

Graduates will have a wealth of opportunities upon graduation. You can choose to complete postgraduate study by coursework and/or research, including courses leading to professional qualifications, or may prefer to enter the workforce directly after completing your undergraduate degree.

Postgraduate degrees

We offer a range of options for postgraduate study. From professional and coursework degrees to independent research, you'll find a style of learning to match your needs.

Postgraduate professional degrees

A postgraduate professional degree is a master's or doctorate-level course, taken upon completion of a bachelor's degree (or equivalent). Upon successful completion, it qualifies you to enter a profession.

Architecture – Master of Architecture

Audiology – Master of Clinical Audiology or Master of Clinical Audiology/PhD

Dentistry – Doctor of Dental Medicine

Engineering – Master of Professional Engineering

Landscape Architecture – Master of Landscape Architecture

Law – Juris Doctor

Medicine – Doctor of Medicine

Pharmacy – Master of Pharmacy

Podiatric Medicine – Doctor of Podiatric Medicine

Psychology – Master of Clinical Psychology/PhD; Master of Clinical Neuropsychology/PhD; Master of Industrial and Organisational Psychology; Master of Industrial and Organisational Psychology/PhD

Social Work – Master of Social Work

Teaching – Master of Teaching (Early Childhood); Master of Teaching (Primary); Master of Teaching (Secondary)

Translation – Master of Translation Studies

Coursework degrees

Our postgraduate coursework degrees help you develop a thorough understanding of an area of study, diversify your educational background or obtain specific vocational training.

Coursework degrees include:

- Graduate certificates
- Graduate diplomas
- Master's by coursework
- Master's by coursework and dissertation
- Clinical doctorates
- Professional doctorates

Research degrees

Students keen to contribute knowledge and develop important skills or explore an area of personal interest may consider a research degree. These involve a project of supervised but independent enquiry at an advanced level, resulting in the submission of a research thesis (or equivalent) which is examined by experts in the field.

Research degrees include:

- Master's by thesis and coursework
- Master of Philosophy (MPhil)
- Professional doctorates
- Doctor of Philosophy (PhD)

Articulation/articulated course

Articulation may be available within certain sets of courses. It is a sequence of related postgraduate courses in a specific discipline area, offering progression from one course level to another with credit granted for all units passed to the appropriate standard in the previous level. Graduate certificates, graduate diplomas and/or master's degrees may form part of this sequence. See table below for more information.

Dental Sleep Medicine (Graduate Diploma)	1 – 2	Online	6.5 – no band below 6.0	S1, S2	52340	N/A	\$39,300

Help with English language skills

The University offers a choice of English language programs through the Centre for English Language Teaching (CELT) to prepare international students for tertiary academic study.

UWA Centre for English Language Teaching

UWA CELT offers accredited English Language Intensive Courses for Overseas Students (ELICOS) programs in General English, Business English and English for Academic Purposes, as well as preparation for internationally recognised examinations such as the IELTS and Test of English as a Foreign Language (TOEFL).

Academic English and Study Skills Bridging Course (Bridging Course)

The Bridging Course has been designed for international students who wish to study at UWA but do not have the University's required level of English proficiency. The course is also suitable for students with unconditional entry into UWA who would like to further develop their language ability and confidence before commencing tertiary study.

A 70 per cent pass in the Bridging Course meets the University's English language requirement for most undergraduate and postgraduate courses; however, some postgraduate courses have a higher English language requirement. celt.uwa.edu.au

study.uwa.edu.au/elc

Bridging Course minimum entry requirements

REQUIREMENTS	20-week program	10-week program
IELTS	5.5 with no band score below 5.0	6.0 with no band score below 5.5 ¹
Internet-based TOEFL	58 with a minimum score of 18 in the writing section, 16 in the speaking section and 12 in the listening and reading sections	70 with a minimum score of 20 in the writing section, 19 in the speaking section, 17 in the listening section and 14 in the reading section
Cambridge First Certificate in English	Minimum score of 60 and borderline for each skill	Minimum score of 75 and good for each skill
Pearson Test of English (Academic)	Overall score of 49 with no individual score below 42	Overall score of 54 with no individual score below 54
UWA CELT General English	Upper-intermediate with a minimum of 70% (no individual skill below 60%)	Pre-advanced with a minimum of 69% (no individual skill below 65%)
UWA CELT English for Academic Purposes	Minimum of 65% (no individual skill below 60%)	Minimum of 69% (no individual skill below 65%)

¹ If entry requirements for tertiary courses are higher than 6.5 and nothing below 6.0, then entry into the 10-week Bridging Course will be no less than 0.5 lower for each individual band and for the overall score. Please refer to the UWA CELT website for further information: celt.uwa.edu.au/courses/pathways

UWA-Perth-WA

CRICOS Provider Code: 00126G

Australian Federal Government legislation requires providers of courses to international students to register their institution and the courses they offer. This register is called the Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS). The Tertiary Education Quality Standards Agency (TEQSA) approves registration before a code is allocated and the details recorded on the CRICOS register. Providers and their agents must not promote a course to overseas students unless it is registered on CRICOS.

UWA is a smoke-free campus
