UWA’s suite of humanities and social sciences courses provides you with the skills and knowledge you need to pursue your career. From languages to history, law to archaeology, public policy to media studies, there are many options to choose from.

Courses

Set yourself apart with a UWA degree. Our courses in humanities and social sciences equip you with the skills and knowledge to succeed on your career path. You will be taught by world-class lecturers with real-world experience in state-of-the-art buildings and facilities.

Experience more than just study

University life is about so much more than just study. We have more than 150 clubs and societies you can join, to take part in activities you already enjoy or get involved in something new. There are events throughout the year, including O-Day Festival during orientation, food fairs, regional trips, wellness sessions and themed activity weeks.

Take your degree global

As part of your learning experience at UWA, you can undertake a semester or a year abroad. We have more than 180 exchange agreements with tertiary institutions all over the world. If you can’t commit to a full semester away or want to build on your previous exchange experience, you can complete an internship, practicum, short course or research program overseas.

Connect with industry professionals

We celebrate strong industry partnerships, offering you practical, real-world experiences in addition to valuable networking opportunities. Our network of industry placements also allows you to find uncredited placements, and for-credit placements or practicums can be arranged as part of your degree.

Pursue postgraduate study

Pursuing a higher degree is one of the best investments you can make in yourself. You’ll learn from experts in your field and make invaluable contacts before you graduate.

Global networks of knowledge and research

UWA’s world-class lecturers and researchers are equipped with the teaching technologies of tomorrow to deliver a leading learning environment for students. A strong focus on knowledge and research capacities means you’ll be at the forefront of a rapidly evolving world and ready to succeed in your career of choice.

With more than 60 research institutes and centres, UWA fosters links with local, national and international industries and governments. The strength of our research output makes us appealing to researchers of international standing, many of whom head major research centres with global connections. This means, as a student, you’ll benefit from the knowledge and expertise of our staff, with networking opportunities that can lead to career possibilities around the world.

UWA brings together heritage architecture and state-of-the-art teaching and research facilities to provide an ideal learning environment. As a student, you can enjoy a range of recreational amenities and modern facilities, including lecture theatres, tutorial spaces, laboratories and more, to ensure you feel inspired to pursue your personal interests and career goals while studying.

Facilities

Reid Library
With more than a million books, UWA’s Reid Library is the largest academic library in Western Australia. Recent works doubled the number of collaborative student spaces and improved the facilities, technology and access available, as well as delivering a brand new café.

Mediation Clinic
The UWA Mediation Clinic is the first comprehensive mediation clinic at an Australian university. It offers a tailored mediation service to staff, students, and members of the public to help resolve University-related, workplace, family or community conflict, and is dedicated to providing excellence in the practice, research and teaching of mediation.

New Fortune Theatre
The New Fortune Theatre is a unique and faithful reconstruction of London’s Fortune Playhouse, which was built in 1600 as a rival to Shakespeare’s Globe Theatre. Located in the heart of UWA’s Arts building, the space has been a prime research and teaching tool for the School of Humanities since it opened with a production of *Hamlet* in 1964, the year of Shakespeare’s 400th birthday.

As the world’s only permanent reconstruction of the Fortune Playhouse, this is the one place in Australia – and one of just a few places worldwide – where you can experience Elizabethan plays as they were intended to be performed.

Beasley Law Library
This bright and modern library provides a comfortable and functional learning space for student research, study or collaboration. As well as holding an impressive collection of law journals and articles, it has an extensive database and areas equipped to function with technological devices, increasing ease for students. The building was refurbished in 2017 as part of the Law School’s 90th anniversary celebrations.

Experimental Farm
The UWA Experimental Farm helps students master key disciplinary techniques used in archaeology, forensics and the study of rock art. Try your hand at every stage of the archaeological and forensic process, from flying drones to getting to grips with metal detectors and curating artefacts to museum standard.

Japanese Gardens and Tatami Room
The Mutsumi no Ma (traditional tatami room) and Japanese Garden are treasured facilities used by students and members of the UWA Japanese Society to enrich their understanding of Japanese culture.
90 years of Italian at UWA
2019 marks the 90th anniversary of Italian language and culture teaching at UWA. Over this time, UWA has grown into a thriving language hub (see page 12 for more).

New Colombo Plan Study Tour
A group of 23 UWA students of French Studies travelled to Tahiti, French Polynesia, to participate in the 2019 New Colombo Plan Study Tour. Held in June, the two weeklong study tour provides students the opportunity to immerse themselves in the history and culture of the island whilst participating in experiential learning activities.

Hands-on experience
Students in the Master of Translation Studies can complete a six-week internship in Australia or overseas to get practical training and establish professional contacts.

Student Bei Zhou completed her internship with the UWA Confucius Institute in 2018.

“This six weeks’ work placement has definitely been a rewarding experience for me. I gained experience in terms of handling ethical issues, getting along with co-workers, and choosing different strategies as per translation theories (learned in the course at UWA).”

Bei Zhou, Master of Translation Studies - Chinese specialisation

Uncovering the past
UWA archaeologists working with the Murujuga Land and Sea Unit Rangers recently found an engraved depiction of a single-masted sailing ship in a petroglyph site in the Dampier Archipelago. This discovery sheds light on early European encounters in the Pilbara.

Meanwhile, UWA’s Professor Alistair Paterson is the Chief Investigator on the ARC Linkage Project ‘Shipwrecks of the Roaring 40s: A maritime archaeological reassessment of some of Australia’s earliest shipwrecks’, which won the 2019 Museums and Galleries National Award for research for Partner Organisation WA Museum.

Multi-award winner
Bachelor of Arts graduate Ashlynne Hendry (Linguistics and Anthropology and Sociology) received the David Anderson Memorial Prize - Ancient History, the Julie Manville Memorial Prize, and the Convocation Undergraduate Prize in Bachelor of Arts at the 2019 Arts Awards Ceremony.

In 2019, 92 awards and over $22,500 in prize money were presented to students at the ceremony.

To see the different prizes within each area, take a look at what is offered at web.uwa.edu.au/study/prizes

Film funding for alumni
Two UWA Communication and Media Studies graduates, Hannah Ngo and Mason Fleming, successfully applied for $80,000 in production funding in the 2019 SBS/Screenwest Scripted Short-Form Content Initiative. Their 16-minute short film titled ‘TRIBUNAL’ will premiere on SBS On Demand.
Dr Matthew Trinca

Dr Matthew Trinca graduated from UWA with a Bachelor of Arts (Honours) in History. He is now the Director of the National Museum of Australia in Canberra.

“I cannot imagine having the role I have now without the foundational experience of studying at the University of Western Australia. The responsibility I feel to animate and give life to the nation’s history in a way that is accessible and useful for all Australians really stems from the sheer delight I had in my studies in History.

I feel so fortunate to have the position of leading the nation’s history museum, and in being involved in communicating what is important about living in this country, both to Australians but also to peoples in other countries around the world.”

New in 2020

Two new majors will be available in the Bachelor of Arts in 2020: Gender Studies and Criminology. These majors, or units within them, can be paired with almost any other major at UWA thanks to our flexible undergraduate course structure.

The Unseen Archive of Idi Amin: Photographs from the Uganda Broadcasting Corporation

UWA archivists have worked with counterparts at Makerere University and the University of Michigan to digitise 25,000 analogue images from a never-before-seen collection of film negatives found in the archives of the Uganda Broadcasting Corporation. Our Associate Professor Richard Vokes was also involved in curating an exhibition at the Uganda Museum, displaying a selection of the photos to show the different ways in which Ugandans experienced the decade of the dictator’s regime.

From the page to the big screen

The film rights to the book *Half the Perfect World: Writers, Dreamers and Drifters on Hydra, 1955-1964*, co-authored by UWA’s Associate Professor Tanya Dalziell, were recently sold to Cascade Films. Filming will commence in late 2021.
Student Guild
We have a vibrant student life with social activities on campus organised by the UWA Student Guild, the representative student organisation.

The UWA Student Guild has a reputation for being one of the most active in Australia and provides the following benefits for students:

- extra support for academic, financial or welfare matters affecting study
- discounts on campus, at shops, and for activities and services around Perth
- countless events including festivals, workshops, end-of-semester parties, networking opportunities, and the Guild Ball (formal dance) – not to mention more than 150 clubs and societies for you to join.

uwastudentguild.com

The Guild Village
The Guild Village is a hive of activity and houses shops, food outlets, a medical centre, bank ATMs and other useful student amenities. A regular marketplace is held every week and is the place to buy inexpensive, locally made clothes, jewellery and more.

UWA Sport
Immerse yourself in the opportunities available to you through sport and make your time at university unforgettable. Become a Fitness Centre member and:

- Get access to more than 60 group fitness classes a week, state-of-the-art equipment, multiple training zones, qualified instructors and free tickets to our popular masterclasses.
- Kickstart your day with a run on the treadmills, or take time out with a lunchtime yoga class.
- Practise your skills in squash, basketball, or tennis on one of our many courts.
- Join our interfaculty, intercollege or social competitions, or represent one of our 27 sport clubs.
- Sign up for our Recreate Short Courses. With everything from salsa to surfing, trips to Rottnest and self-defence classes, there really is something for everyone.

The Cultural Precinct
The Cultural Precinct is UWA’s cultural hub, supporting the music, theatre, dance, literature and exhibition programs on campus. It also supports broader arts and cultural events that take place throughout the year, including collaborating with the Perth Festival.

culturalprecinct.uwa.edu.au

Volunteering
The Guild Volunteering office helps students find their ideal volunteering role. Many opportunities will be added to your degree transcript and you can choose from a range of fields.

Gain credit towards your degree while you study

“I thought I really understood China before I went there. I had read heaps of books and learned about China during my studies, and I really thought I had things figured out. I didn’t. There’s so much that can’t be understood until you actually go and live in a place and do things the way they’re done there.”

Cormac Power, Political Science and International Relations and Economics
With four European, four Asian and two Classical languages on offer, UWA is the leading institution in WA for language learning.

Immerse yourself in another language. Learn to see the world in a new way. Move between cultures with ease.

With our unique course structure, you can combine a language with your other interests to create your perfect study plan. French and Finance? Chinese and Chemistry? German and Geography? Japanese and Jurisprudence? It’s up to you.

You’ll learn to translate not just words, but ideas.

During your studies you can put your skills into practice by travelling overseas with one of our many global learning opportunities, from short courses to long-term student exchange programs.

After completing an undergraduate major in any of our eight modern languages, you could continue on to our Master of Translation Studies (the only course of its kind in Western Australia) to gain a prestigious professional qualification. Endorsed by the National Accreditation Authority for Translators and Interpreters (NAATI), Master of Translation Studies students may also undertake a work placement in Australia or overseas.

Where could your language studies take you?
Dr Nicola Fraschini
Coordinator of the Korean Studies major
Nicola holds an M.A. and a PhD in Korean as a Foreign Language and Culture Education, teaching Korean language in South Korea before joining UWA in 2015. As well as being the unit coordinator for several Korean units, Nicola conducts research into the pedagogy of Korean language and culture, currently looking at learners’ motivations and emotions in foreign language teaching.

You can be taught by Nicola in Korean 1, where you will start learning the Korean alphabet, and also in Korean 6, where you will learn how to use academic Korean language to deliver a talk or participate in a debate.

“Learning a foreign language helps you understand other people and societies, and build a multicultural identity. Don’t miss this opportunity.”

Dr Kati Tonkin
Senior Lecturer in German Studies and History
As a leader in teaching innovation, Dr Kati Tonkin uses technology to deliver her courses in effective and engaging new ways.

Kati’s published research covers a wide range of topics from interwar Austrian literature, to contemporary European film, to student mobility and intercultural literacy. Her current projects include collective memory in German electronic music of the 1960s and 1970s, and student perceptions of the flipped classroom.

You could be taught by Kati in German Beginners 1, which is delivered in blended mode, with short video modules preparing you for language classes where the emphasis is on active learning, as well as in History units such as Civilisation and Barbarism in European Culture.

She also recently piloted the use of Smart Sparrow, an adaptive e-learning platform, to replace lectures in Civilisation and Barbarism.

“You could be taught by Kati in German Beginners 1, which is delivered in blended mode, with short video modules preparing you for language classes where the emphasis is on active learning, as well as in History units such as Civilisation and Barbarism in European Culture.”

“Studying a language opens so many doors, not only to different countries and cultures but also to a huge range of employment opportunities and new and different ways of thinking.”
A world-leading course model

The UWA course model is progressive, personalised and benchmarked against the world’s leading universities.

You can choose from five bachelor’s degrees: Arts, Biomedical Science, Commerce, Science and Philosophy – and you won’t be limited to one major. Our course model means you can major in two areas. Choosing to complete two majors during your three-year bachelor’s degree means you’ll broaden your knowledge across multiple disciplines.

You also don’t need to confirm your major, or majors, until the end of first year, so you can explore your strengths and interests, without losing time or money. Once you’ve graduated from your first degree, you can go straight into the workforce or continue on to postgraduate study.

A postgraduate degree gives you advanced knowledge and specialised skills, so you can take your career to the next level and become more attractive to employers. When you complete a postgraduate qualification at UWA, you’ll enter your career with a higher qualification than a double degree. Studying up to two majors in your bachelor’s degree – and raising your expertise to postgraduate level – gives you the qualifications and skills to succeed anywhere in the world.

Glossary

There are four types of units that make up your degree: core, broadening, complementary and elective. A unit is a subject that you study for one semester.

Broadening units
Broadening units add a valuable dimension to your studies and provide you with knowledge beyond the fields in which you choose to specialise. Undertaking broadening units is a requirement of the University’s undergraduate degree course structure.

Complementary units
These units go hand-in-hand with your major/s and are designed to give you extra knowledge to help you complete your major.

Core units
A core unit is one that must be taken to complete your chosen major. Some majors have set core units while others allow you to choose from a list of core unit options.

Elective units
Also known as ‘free choice’ units, these units give you a great opportunity to explore other areas of interest and expand your knowledge.

Humanities and Social Sciences 2020 Study Area Guide
The Bachelor of Arts degree at UWA offers you a unique learning experience with the flexibility and depth to pursue your passion while gaining transferable skills for a future-proof career in a diverse range of fields.

The UWA Bachelor of Arts is one of the most diverse degrees in Western Australia, with 35 majors to choose from. Spanning music and design to law, humanities and social sciences, our Bachelor of Arts gives you the lifelong skills employers seek, for an immediate competitive edge in the employment market. This is evidenced by the fact that our graduates enjoy the highest average starting salaries for Bachelor of Arts graduates in Australia (University Rankings Australia, 2018).

Studying the Bachelor of Arts at UWA allows you to take courses from a range of subjects, from the earliest days of humanity and history in Archaeology or Classics and Ancient History, to cutting-edge technologies of performance and creativity in Music Studies, Architecture or Communication and Media Studies.

Tackle the great challenges facing society with a major in Philosophy, Political Science and International Relations, Criminology, Gender Studies or Anthropology and Sociology. Develop critical cultural engagement with a major in History or English and Literary Studies. Make a difference to your community with a major in Psychology, Human Geography and Planning, or Work and Employment Relations. Or participate in our innovative language programs to equip you with linguistic skills and an enhanced cultural understanding.

UWA’s Bachelor of Arts sets you on the path to becoming a global citizen. Study abroad for a semester or two at one of our renowned partner universities with which we have an exchange agreement, or choose from our range of short international study units. You can also learn a language, with four Asian and four European languages to choose from.

Why study a Bachelor of Arts?

Studying Arts equips you for every aspect of life. It enables you to discover your talents, interests and abilities, and develop them fully. You’ll acquire transferable skills such as critical thinking, communication, reasoning and problem-solving. These proficiencies are all highly sought-after and valued by employers and will provide you with many future career opportunities.

Beyond your degree

Gaining demonstrable transferable skills and experience via the UWA Bachelor of Arts sets you apart and prepares you for the future. As an Arts graduate, you are equipped with a well-rounded education in addition to excellent communication, research and technical skills that allow you to enter many different careers. You can also choose to complete postgraduate studies to pursue a professional career or to give you a competitive edge in a rapidly changing workforce. Successful UWA graduates include politicians, ambassadors, authors, composers, journalists, anthropologists, historians, policy advisers and teachers, to name a few.

Practical experience

You could also choose to undertake the Arts Practicum as part of your course. This provides you with the chance to work on a supervised project in a workplace of your choice, while earning credit towards your degree. You’ll gain practical workplace experience and industry connections, helping you gain the skills to launch a successful career.
Ian Tan – Politics and History

"I have always had a natural interest in both political science and history, so they were natural choices for me to study at uni. I’m enjoying the quality of the lectures and the content being studied, but my favourite aspect would be the excellent facilities here, especially after the recent refurbishment of Social Sciences and Arts rooms. I am also a Vice-President of the UWA Politics Club, which is a great forum for people who are interested in politics. It has a focus on domestic politics, and hosts a range of events including debates, quiz nights and mock parliaments."

What can I study?

The Bachelor of Philosophy (Honours) gives you the freedom to choose a major from any field of study within Arts, Biomedical Science, Commerce or Science. It is an integrated honours degree with research embedded throughout the four-year course and the opportunity to learn a language.

The BPhil Residence, held prior to the start of your first semester, is an integral part of the course and is designed to introduce you to the academic expectations of this degree as well as give you the opportunity to meet other students in the course. In your first semester, you will complete the first-level unit — Global Challenges, Research and Leadership — and take part in a group research project. This forms the basis of your subsequent research training.

Throughout your course you will participate in collaborative and interdisciplinary research projects, work closely with a research mentor from your chosen field of study, develop your own research project with an academic supervisor, present your research orally, produce a research dissertation, undertake an overseas study experience, and have the opportunity to meet international research leaders visiting the University.

Entry requirements

Entry to this course is extremely competitive. The entry requirement is an Australian Tertiary Admission Rank (ATAR) of at least 98.00 in most cases. Before nominating your degree-specific major (and second major where relevant) you must have satisfied any specified prerequisites for the major (see pages 20 to 48 for detailed descriptions and prerequisites of majors).

The BPhil Residence is a requirement of this course and all students are expected to attend.

Beyond your Bachelor of Philosophy (Honours)

Graduates will have a wealth of opportunities upon graduation. You can choose to complete postgraduate study by coursework and/or research, including courses leading to professional qualifications, or you may prefer to enter the workforce directly after completing your undergraduate degree.
Anthropology and Sociology

Ever wondered why the world is like it is? Anthropology and Sociology offers ways of understanding the complex social dimensions of challenges the world is facing by examining the contexts of human experience and social relationships comparatively across place and time.

The study of Anthropology and Sociology provides valuable skills for living and working in a globalising and inter-connected world by exposing you to different systems of beliefs, values and practices found among the world’s cultures. But it’s not just about other cultures. A major in Anthropology and Sociology helps you understand Australian society and its relationship to the world. At a personal level, it offers a perspective on challenges in your everyday life, and encourages you to question your taken-for-granted beliefs. We teach skills in critical thinking, careful observation and record-keeping, oral, visual and written expression, research skills such as interviewing, listening and critical reflection.

Career opportunities
A degree in Anthropology and Sociology is useful for careers in Australia and overseas focused on social services and welfare, Indigenous issues, social aspects of health, community development, social research, policy development, advocacy, urban and environmental policy and planning, human rights, international development, conservation planning and foreign aid. Graduates may proceed to specialised training in professions in law, psychology, public policy, education, publishing, journalism, industrial relations, international development or social research.

Further study options
A major in Anthropology and Sociology leads to further study at honours and postgraduate level. You can choose to apply for courses such as the Master of Social Research Methods, Master in International Development and Master of Public Policy or Master of Forensic Anthropology.

“A found Anthropology and Sociology, with its study of cultures and people, highly engaging and relevant, and a great complement to my other major.”

Justin Pereira
Archaeology

Archaeology is the only discipline to study more than three million years of human history in all its facets. We also investigate more than 65,000 years of Australia’s human history.

The Archaeology major brings together specialist units of study such as fieldwork, DNA analysis, archaeobotany, archaeozoology, rock art, Indigenous archaeology, the origins of humans and archaeological heritage, dating, and further cutting-edge technologies. Develop practical skills through laboratory classes and fieldwork units, with three field schools held each year.

Popular study combinations
- Anatomy and Human Biology
- Anthropology and Sociology
- Geographical Sciences
- History

Course structure
Level 1 core units
- Archaeology A, B and 14C
- Great Discoveries in Global Archaeology

Plus two of the following:
- Australian Archaeology
- Experimenting with Archaeology
- Historical and Maritime Archaeology

Career opportunities
Archaeologists enjoy varied employment opportunities. They can work as academics, museum workers, native-title and Indigenous community workers, and activists. They also work in the government sector on heritage policy and delivery, in the education and tourism sectors, and manage cultural heritage for the mining and resources sector. UWA Archaeology graduates are multi-skilled and in-demand in Australia and overseas.

Further study options
Honours is the minimum qualification required to call yourself an archaeologist. At UWA, we have honours, master’s and PhD programs in Archaeology, plus a Master of Heritage Studies. Throughout your studies, you can undertake independent vocational training using the Arts Practicum.
Asian Studies

Asia is home to two-thirds of the world’s population and some of the most dynamic and fascinating societies on the planet. From cultures, history and politics, through to religion, gender and environmental issues, you can explore the issues facing Australia’s nearest neighbours.

This major provides knowledge and a solid basis for critically understanding the great diversity of cultures, societies and political systems of Asia, including China, Indonesia and Japan. It explores the impacts of the great religious and philosophical traditions of the region such as Buddhism, Hinduism and Islam, and investigates the dramatic changes colonialism, revolutions and modernisation have brought to the region. You’ll examine topics as diverse as popular culture, gender relations, environmental issues, political transformations, the media and Australia’s relations with the region. This major does not require you to learn an Asian language.

Course structure
Level 1 core units
- Asia from Colonial to Modern
- Asian Societies and Cultures

Level 2 options (select two)
- Australia and Asia
- Culture, Society and the State in Asia
- Environment, Power and Disasters in Asia
- Popular Culture in Asia

Level 3 options (select four)
- Contemporary Korean Society
- Democratisation in Asia
- Gender and Power in Asia
- Indonesian Politics and Culture
- Issues in Japanese Society and Culture
- Social Issues in Contemporary China

Career opportunities
Graduates have excellent employment prospects in Australia and in the rising economies of Asia. Many employers in Australia and Asia – including human rights, education, tourism and media organisations, the Department of Foreign Affairs and Trade, the World Bank, and the United Nations – give priority to the employment of graduates with an Asia-related academic background.

Popular study combinations

The Criminology major will challenge students to apply criminological theory to analyse contemporary challenges relating to crime, victimisation, crime prevention, and the criminal justice system. Students will learn to recognise, interpret, and critique contemporary trends in crime.

Criminology is an inter-disciplinary subject area that has emerged from the attention distinct disciplines have paid to offenders and offending. As such, the Criminology major draws on knowledge and perspectives from a range of disciplines including Law, Psychology, History, Anthropology and Geography.

The combination of core and optional units in this major structure will expose students to the breadth of issues being addressed by contemporary Criminology. Included in this will be understanding of the practical role Criminology plays in advising governments on issues relating to criminality, crime prevention, policing, corrective services, sentencing, and offender treatment.

Students will learn to critique both crime and the criminal law, being encouraged to question why there is such variation across time and space about the types of acts we define as crime and the ways that we respond to criminality. The Criminology major will require students to develop a broad range of employment-relevant skills, including the capacity to think critically, integrate theory and research to practice, and communicate effectively in written and oral forms.

In English and Literary Studies we take the imagination seriously. We address the creative texts that societies produce and ask what they mean. From Shakespeare to Netflix, and from critical theory to creative writing, English and Literary Studies offers a wide range of units to build your major.

Our units look at the rich history of the western literary tradition: Shakespeare, Jane Austen, Virginia Woolf; writers who have done much to shape the way we live imaginatively in the world today. The major also offers units that look at the exciting ways in which literature works in the newly globalised world. Other important elements of the major are creative writing, where students produce their own creative work; screen and performance studies, which examine texts in media not confined to the written page; and the study of everyday life (gender, race, class) as it is mediated textually and imaginatively.

French Studies

Open up the world with French and enhance your career opportunities. French is one of the world’s major international languages and is spoken by more than 200 million people in 43 countries. It is a key working language in international organisations and NGOs such as the UN and the European Union. Studying French is more than simply learning a language. It’s an experience that will open your mind to different cultures, enrich you with knowledge of history and enable you to engage in real-world issues. Beyond achieving high levels of competency in speaking, writing, listening to and reading French, you will learn about French culture in France and other French-speaking countries around the world.

The major caters for students from beginners to native speakers. Study past and present French and francophone literature, films, contemporary society, and popular culture. You may also opt to participate in an exchange program at leading universities and elite schools throughout France and Canada.

Career opportunities

Whether studying for a major or taking a European language as a broadening unit, graduates who have studied French will be well qualified for careers in the diplomatic services, teaching, and interpreting and translating, as well as careers in travel, hospitality, publishing, theatre, commerce, international relations and the entertainment industry. Knowledge of a foreign language is particularly helpful in international banking and law, journalism and communications, medical and scientific areas, music and the arts.

Further study options

This major can lead to honours and postgraduate studies. Students majoring in French Studies should also consider furthering their studies by taking a Master of Translation Studies to gain a prestigious professional qualification.
Gender Studies

This major traces histories, theories, and experiences of gender and its intersections with race, class and sexuality. It explores the everyday practices, institutions, and cultural texts of students’ gendered lives and investigates the social and cultural legacies that inform contemporary lived experience.

The major is grounded in interdisciplinary methodologies and equips students with the analytical, communication, and advocacy skills to foster equity, diversity and inclusion in any context. It also emphasises skills in collaboration, leadership, group dynamics, and literacy in screen, print and digital cultures.

The Gender Studies major draws on knowledge and perspectives from a range of disciplines including anatomy and human biology; anthropology; art history; biomedical science; classics and ancient history; English; history; Indigenous knowledge, history and heritage; law; music; political science and international relations; and work and employment relations.

Course structure
This is a new major in 2020. Please check our website for details of the course structure.

The core and optional units will expose students to the breadth of interdisciplinary issues canvassed by contemporary Gender Studies.

Career opportunities
Students cultivate skills in critical thinking around gender and sexuality which can be applied to occupations in human resource management, politics, law, policy planning, social work, research, teaching and education, media and journalism, community development, women’s services, and human rights and equal opportunity.

Geography is the science of place and space, standing at the intersection of natural and social sciences. Geographers study the Earth’s landscapes, peoples, places and environments, and how these intersect. Understanding contemporary urban and environmental problems requires an appreciation of the interdependence between human activities and the natural and cultural environment.

The Geographical Sciences major provides you with these insights, focusing on the challenges facing our planet, such as population growth, urban expansion and megacities, natural disasters, environmental conservation and climate change. Your degree provides you with the opportunity to participate in exciting field trips to a range of domestic and international locations, with recent overseas destinations including Bali, Barcelona and Seattle.

Its scope spans millennia, its object of study is humanity, its sources are everywhere and everything. History’s endeavour is unashamedly vast, daunting and challenging. Studying history means learning how to learn about the past, it means engaging with its wonders and horrors, and it means joining in its telling and retelling.

Uncover the deep causes of events such as the American Revolution or the First World War, and discover how women and men experienced the medieval world or the colonisation of Australia. History introduces you to the complexities involved in these pursuits and requires you to use both imagination and reason. Studying history will immerse you in discovery, debate, discussion, understanding, surprise and awe, and it will require of you rigour, reason, questioning, imagination and passion. By studying history, you will be part of the process by which humanity’s memory itself comes to be made.

• Reading Landscapes: People and Processes

Career opportunities
Planners and geographers are employed by local and state governments and in the private sector in areas including regional development, public administration, public policy, social research, teaching and property and land development. Graduates with this major are also employable internationally, helping solve social, economic and environmental problems in other parts of the world.

Further study options
Students with a Human Geography and Planning major can pursue further studies at Honours level in Urban and Regional Planning. A Master of Urban and Regional Planning (by coursework) may also be studied, and this degree is accredited by the Planning Institute of Australia.

 Expand your knowledge for creating liveable communities, vibrant economies and sustainable places. Study Human Geography and Planning to explore the complex interplay of environmental, economic, social and political processes that shape human activities on a range of scales from local to global.

To flourish, human and urban developments must grapple with ecological sustainability, cultural diversity, changing demographic pressures, disasters and global markets. The conceptual foundations of Human Geography and Planning, along with applied fieldwork based on real-world problems, enable you to develop highly valued skills by drawing on and integrating knowledge from the related disciplines of geographical science, economics, architecture, sociology and environmental science. You will develop the relevant knowledge and skills to help resolve major urban and regional problems, and ultimately have the ability to contribute to the creation of liveable communities, vibrant economies and sustainable places.

It is therefore not only a degree to understand the academic perspective of Indigenous Studies but also one of public consciousness.”

Dougie Nelson
Indonesian is the national language of our nearest neighbour and the world’s fourth-largest country. The cultural diversity and tropical ecology makes Indonesia one of the most enjoyable countries in which to study, travel and work.

Indonesian is a relatively easy language to learn as it uses the Roman script and is simple to spell and pronounce. As a result, Indonesian is a popular choice for beginners. Learning how to speak, read and write Indonesian enables graduates to live and work in a country set to become one of the world’s largest economies. Students of Indonesian at UWA are encouraged to spend part of their course studying at an Indonesian university, an experience that is fascinating, enriching and fun.

“UWA is the only university in WA that offers a comprehensive Korean Studies major, so it seemed like the obvious choice to me. Throughout my childhood I’ve always had a fascination with languages, so when I enrolled at UWA I had the opportunity to combine that love of languages with my interest in Korean culture.”

Matthew Meinema

Note: The Korean Studies major requires no previous knowledge of Korean. As the major is only offered from beginner level, candidates with existing competence in Korean language should contact the course convenor to discuss whether they will be able to enrol to study for the major.
Law and Society

From human rights, decisions about birth and death, and crime and justice, to Indigenous rights, freedom of expression and religion, the Law and Society major explores the impact that law and social policy has on our lives, both nationally and globally.

How do law and society relate to and change each other? How does law actually work in the real world? Is the law the same thing as justice? You will explore a variety of fascinating issues while developing skills in understanding, applying and critiquing socio-legal concepts and issues. With its focus on the social dimensions of law, this major perfectly complements a wide range of studies, including politics, communications, sociology, culture, economics or anthropology.

Popular study combinations

From sounds and words to how language is used in different societies and cultures, linguistics is the study of language and communication. This major aims to give you the broadest possible grounding in contemporary linguistics and enables you to specialise in your areas of interest.

This major includes both fascinating theoretical research and practical field-orientated projects. You'll have the opportunity to work on a variety of linguistic topics including grammatical descriptions and dictionaries of Australian Aboriginal languages, analysis of Australian English and Romance languages, the study of meaning in language, and the relation between language and society. You do not need to know a second language or ‘be good at languages’ to excel in Linguistics. Many excellent linguists speak only one language; all you need is a healthy curiosity.

Popular study combinations
- Anthropology and Sociology
- Archaeology
- Law and Society
- Sport Science

Course structure
Level 1 core units
- Language and Communication
- Language and Cognitive System

Level 2 core units
- Grammatical Theory: The Structure of Sentences
- Language, Culture and Society
- Phonetics and Phonology: The Sounds of the World’s Languages

Level 3 core options (select three)
- Historical Linguistics: Language History and Language Change
- Linguistics of Australian Indigenous Languages
- Linguistic Typology: The Diversity of Languages
- Morphology: The Structure of Words
- Pragmatics: Meaning in Use
- Semantics: Meaning in Language
- Topics in Linguistic Theory

Career opportunities
A major in Linguistics provides a foundation for any career that involves language or languages, human social organisation and culture, or the human mind. In addition to research careers, graduates go on to hold careers in language teaching, speech therapy, journalism and broadcasting, translation and interpreting, Indigenous education and support work and information technology, among others.

Further study options
The honours course in Linguistics is intended to extend your knowledge of linguistic theory and methods, allow you to pursue a specific interest in your research thesis, and provide research training in linguistics. This is great preparation for future research, including a PhD or master’s by research.

“Studying Linguistics has shown me how complex and abstract language is, and has given me an appreciation of how incredible it is that we learn and use it so easily every day. The lecturers and tutors are always there to assist students, and their passion is definitely contagious.”

The University of Western Australia | study.uwa.edu.au
Combining economic thinking, moral philosophy and politics, this course prepares students for employment in professions that deal with a broad scope of political and economic life.

The study of politics had its origins in philosophy; and the study of the political economy, which we now call economics, also had its origins in both philosophy and politics.

The Philosophy, Politics and Economics double major is a challenging and rigorous program that allows students to consider social and political life through the multidisciplinary perspectives provided by philosophy, politics and economics.

Students will identify and evaluate assumptions underpinning philosophical, political and/or economic viewpoints on social and legal topics, as well as demonstrate sound research skills and written and oral communication skills.

Course structure
Level 1 core units
- Introduction to Critical Thinking
- Microeconomics: Prices and Markets
- The Liberal Democratic State

Level 2 core units
- Bioethics
- Foundations of Global Political Economy
- Knowledge and the Justification of Belief
- Microeconomics: Policy and Applications
- Rise of the Global Economy

Level 3 core units

- Continental Philosophy: The Origin and Influence of Phenomenology
- Moral Theory
- What to Do? How to Make Rational Decisions under Uncertainty

Plus two from the following level 3 politics units:
- Contemporary Political Theory
- Democratisation in Asia
- Global Environmental Politics
- Social Movements and the Politics of Change

Career opportunities
This is an undergraduate program that targets employment in the areas of public service agencies such as Treasuries, Department of Premier and Cabinet/Department of Prime Minister and Cabinet and line agencies; and politician’s staff. It is also envisaged that PPE graduates will find careers in the private sector, such as political and economic journalists or as policy advisors in private sector agencies that deal with government (e.g. Chamber of Commerce and Industry).

Further study options
This major lays the foundation for further study options at postgraduate level including the Master of Public Policy, the Master of International Relations, Master of Economics and the Juris Doctor.

**Gain an understanding of governments and political systems in Australia and internationally, and the values and ideologies that have motivated political action in modern society.**

Societies can only continue to exist if they solve the problem of internal order and are able to protect themselves from external threats. This major focuses on the ways in which states and peoples interact with other states, regional or global political organisations, and social movements in an increasingly interdependent world. Gain an understanding of how government is organised; of values such as liberty, participation, majority rule and minority rights, which inform political institutions and public policy; and of ideologies such as conservatism, liberalism, socialism, feminism and environmentalism, which have motivated much political action in modern societies.

Pathways to professional careers

Pursuing one of our professional pathways will further your studies and increase your career opportunities in professional areas, such as law and translation studies.

There are two standard pathways you can choose from.

**Direct Pathways**
If you already have a professional career in mind, our Direct Pathways combine your undergraduate and postgraduate degrees, providing you with a clearer direction to your career of choice. Direct Pathways are available in the following areas:

- **Juris Doctor (Law)** 96.00 ATAR
- **Master of Translation Studies** 90.00 ATAR
- **Master of Teaching** 92.00 ATAR

A Direct Pathway gives you an assured place in one of our postgraduate professional courses and, in some cases, reduces the length of your postgraduate course. Direct Pathways also exempt you from sitting and passing certain exams for entry into a postgraduate course. Some Direct Pathways will still require you to meet certain entry requirements.

Direct Pathways require a higher ATAR than our bachelor’s degrees. To study one of our Direct Pathways, you’ll need to meet the ATAR for the specific pathway and apply through TISC using its unique code.

[study.uwa.edu.au/direct-pathways](study.uwa.edu.au/direct-pathways)

**Graduate Pathways**
If you don’t meet the ATAR requirement for a Direct Pathway, you can still study in the same area using the professional (or graduate) pathway. This involves entering your flexible three-year undergraduate degree (ATAR of 80.00 required), maintaining satisfactory grades and then applying for your postgraduate degree at the end of the last year of your bachelor’s degree.

“The Master of Translation Studies was the perfect progression; it has enabled me to enter a ‘hidden’ world that consists of exploring the theoretical, practical, creative, and fascinating aspects of translation. The opportunity to undertake a six-week internship in Italy was an extremely valuable aspect of the course, enriching my translating skills and giving me an insight into the life of a translator. My ultimate goal is to work in the field of literary translation; I absolutely love the challenge of transferring messages, ideas and emotions across languages.”

UWA offers a range of other postgraduate courses in humanities and social sciences. These courses provide training and research opportunities in a range of disciplines.

**Coursework degrees**
Our postgraduate coursework degrees help you develop a thorough understanding of an area of study, diversify your educational background or obtain specific vocational learning.

Coursework degrees include:
- Graduate certificates
- Graduate diplomas
- Master’s by coursework
- Master’s by coursework and dissertation

Benefits of undertaking a coursework degree:
- Gain specialised knowledge for further professional development and career progression.
- Learn from and work with the best in the country, including researchers of international standing and multiple award-winners.

Explore our range of postgraduate courses: study.uwa.edu.au/postgraduate

**Research degrees**
These involve a project of supervised but independent enquiry at an advanced level, resulting in the submission of a research thesis (or equivalent), which is examined by experts in the field.

Research degrees include:
- Professional doctorates
- Master’s by thesis and coursework
- Master’s by research
- Master of Philosophy (MPhil)
- Doctor of Philosophy (PhD)
- Doctor of Juridical Science (SJD)

Benefits of undertaking a graduate research degree:

The Master of Forensic Anthropology has been designed specifically for students to gain knowledge in current developments in forensic sciences and particularly those medical and social sciences which are of direct relevance to the application to forensic anthropology.

The Master of Forensic Anthropology coursework enables you to undertake advanced studies in forensic anthropology, while developing an in-depth knowledge of the human skeleton. You'll gain a practical understanding of the scientist’s role within the Australian legal system, and have the opportunity to explore various anthropological techniques using traditional and digital modalities. There is considerable diversity of research related to forensic anthropology, ranging from morphometrics through to computer-graphic facial reconstruction, and interdisciplinary research is encouraged. You are provided with a grounding in ethics and research methods in forensic science, relevant theory and method applicable to forensic anthropology and the related disciplines of odontology and archaeology, as well as the analytical and practical skills needed to provide expert testimony in court. After successful completion of six coursework units you’ll be able to specialise in a particular area of interest, gaining practical experience in an independent scientific study through the completion of a data-based project of direct relevance to forensic anthropology.

Admission requirements
To be considered for admission to this course an applicant must have:
(a) a relevant bachelor’s degree, or an equivalent qualification, as recognised by UWA; or
(b) a Graduate Diploma in Forensic Anthropology or an equivalent qualification, as recognised by UWA.

Career opportunities
Many students who choose this program are likely to do so to achieve the necessary osteological/forensic knowledge to apply for PhD study upon course completion. Others are seeking employment in mainstream forensics. To that end, graduates of this course may find employment opportunities as a forensic scientist generally (or anthropologist specifically) in both the public and private sector, including areas such as the forensic science industry, science-based industries, teaching, government agencies, state and federal police, ASIO, correctional services; and community services. Other possible career options include working as a freelance forensic anthropologist, or employment with a private forensic company, a national institution, or the United Nations.

Course structure
Core units
- Molecular Osteology
- Forensic Odontology and Introductory Osteology
- Ethics and Research Methods in Forensic Science
- Medicolegal Death Investigation
- Forensic Anthropology 1 – Introductory Theory and Method
- Forensic Anthropology – Theory and Method
- Scientific Expert Testimony
- Forensic Anthropology 2 – Advanced Theory and Method
- Forensic Anthropology Professional Project Part 1
- Forensic Anthropology Professional Project Part 2
- Forensic Anthropology Dissertation Part 1
- Forensic Anthropology Dissertation Part 2

(b) (i) a Graduate Certificate in Heritage Studies or Graduate Diploma in Heritage Studies, or an equivalent qualification, as recognised by UWA; and
(ii) the equivalent of a UWA weighted average mark of at least 65 per cent.

Career opportunities
There are many career opportunities for graduates with expertise in heritage studies both in Australia and internationally. Your career could include roles in government, industry, non-governmental organisations, mining companies, community organisations and tourism operators, adding diversity to your career.

Course structure
Core units
- Working with Stakeholders
- Debates in Contemporary Heritage Studies
- Foundations in Heritage Management
- The Business of Sustainable Heritage
- Intangible Heritage
- Heritage and Development in Asia

Further study
The Master of Heritage Studies will lay the foundation to pursue a Doctor of Philosophy.

"UWA is the only university in the State which offers this course. I was drawn to its cross-disciplinary nature. I’ve been fascinated by Indigenous heritage for a long time; it is so important yet misrepresented in the place we live. I see it as an honour and a privilege to be on Noongar boodjar (country) learning Noongar katitjin (knowledge) and wangkiny (language) with Noongar people."

Edward Slade
Master of International Development

“I chose the Master of Strategic Communication because of the broad set of skills the core units provide, while still allowing me to specialise through the number of electives available. The classes were quite small and teachers were very approachable. In-class discussions allowed for deeper learning, while group work broadened my horizon and served as a great way to make new friends. I now feel empowered to pursue my dream of using communications and marketing to make a positive impact in the world.”

Master of Industrial and Organisational Psychology
study.uwa.edu.au/gd/int-comm-law

Course Code: 53560
Duration: 2 years
Intake period: February, July
Mode of study: Coursework and dissertation
Fee type: Commonwealth-supported

COURSE DESCRIPTION

Industrial and Organisational Psychology is a specialist area that applies psychological knowledge and skills to workplaces with the aim of improving organisational effectiveness and the quality of work life. You will develop expert, specialised skills in industrial and organisational psychology. You’ll learn to review, analyse, consolidate and synthesise knowledge and provide solutions to complex problems. Specialised technical knowledge and skills will be obtained through coursework and practicum components of the course. You’ll complete the course with highly developed skills in assessment; treatment and intervention; and research, with an emphasis on an evidence-based framework. The skills developed are in line with the essential core capabilities and attributes required by the Australian Psychological Accreditation Council (APAC) and the Australian Psychological Society’s (APS) College of Organisational Psychologists for postgraduate professional courses.

Requirements:
To be considered for admission to this course you must have an accredited bachelor's honours degree in psychology with an upper second class Honours (2A), or an equivalent qualification as recognised by UWA.

You must be eligible for provisional registration as a psychologist with the Psychology Board of Australia, which includes meeting the Board's English language registration standard.

Where relevant, admission will be awarded to the highest-ranked applicants or applicants selected based on a satisfactory personal statement, as recognised by UWA; and two satisfactory referees, as recognised by UWA; and a curriculum vitae summarising relevant occupational and practical experience, as recognised by UWA; and an interview in which eligible applicants will be assessed based on the personal qualities considered desirable in psychology, and the intake quota for that year.

How to apply for an undergraduate course

1. Find a course
   Explore your options at study.uwa.edu.au. You can also visit the Tertiary Institutions Service Centre (TISC) website tisc.edu.au or obtain a copy of the 2020 TISC Guide.

2. Check the entry requirements
   Entry to most courses is assessed on your ATAR (or equivalent), but it is important to check for additional selection criteria which can apply to some courses and pathways. You should also check the prerequisite subjects for your course of interest.

7. Offers are released
   If you receive an offer, you’ll be given instructions on how to accept your place and how to get started on your UWA journey. Main round offers are released in late December 2019, with second round offers available in late January 2020. Refer to the TISC website for updated offer dates.

   tisc.uwa.edu.au
Investigate your entry options
We offer a number of special entry pathways for Indigenous and non-Indigenous students. See pages 80-81 for more information.

Visit us
Open Day is a fantastic opportunity for you and your family to get a taste of uni life at UWA. If you can’t make it to Open Day, campus tours are held throughout the year for you to come and explore. To discuss your study options at UWA, contact our Future Students team on 131 UWA (131 892) or at ask.uwa.edu.au.

Results and change of preferences
Once you’ve received your final Year 12 results and ATAR, you’ll have a short timeframe to change your preferences. This can be done online via the TISC website. Our Admissions team is available during this time to answer any questions you may have about changing preferences and entry requirements.

Apply
Once you’ve selected your UWA courses, submit your application at tisc.edu.au. Applications open early August and close late September. You can learn more about the TISC process at tisc.edu.au. For mid-year or mature-age applicants, you can apply directly to UWA via study.uwa.edu.au/apply.
How to apply for a postgraduate course

Applicants are expected to have completed an undergraduate degree at an approved university and undertaken adequate preparation for the degree for which they are applying.

1. **Apply online**
   Submit an online application at study.uwa.edu.au/how-to-apply/lodging-your-application that includes all necessary documentation specified in the admission requirements of your course. For admission requirements and application dates, visit study.uwa.edu.au/how-to-apply.

2. **Accept your offer**
   If successful, and you receive an offer for postgraduate study at UWA, you can respond by following the instructions on your offer letter.

3. **Start your UWA postgrad journey**
   Unistart is your official guide to starting postgraduate study at UWA. Follow the steps at unistart.uwa.edu.au/postgrad to plan for pre-enrolment, enrolment and orientation.
1 Contact your Higher Degree by Research support team in the relevant faculty

Faculty of Arts, Business and Law
hdr-fable@uwa.edu.au

Read the profiles of our Research Leaders who may be potential supervisors at research.uwa.edu.au/fellows.

Prepare your research proposal: Prepare a brief outline (maximum 250 words) of your proposed area of study to discuss with a prospective supervisor.

Discuss your resources: Find out what resources are available to you as a postgraduate research student, as these vary depending on the school in which you enrol.

Be informed: There is useful information online for future research students, including how to prepare a research proposal. Visit study.uwa.edu.au/research/becoming-a-research-student.

2 Submit your application

Submit an application to the respective HDR support team in your faculty. This should include:

- A completed research application form available at study.uwa.edu.au/how-to-apply/lodging-your-application
- All certified documents as listed on the application form
- A research proposal

Successful applicants will be sent an offer package electronically, including a letter of offer/authority to enrol, and acceptance documents. You should allow six to eight weeks to process.
Alternative entry pathways

We offer alternative entry pathways that allow you to be considered for admission to a course if you didn’t meet our standard entry requirements.

AccessUWA
AccessUWA lets you enrol in units without being formally admitted to a degree course. Upon successful completion of a minimum number of units, you can apply for undergraduate admission based on your results. The units may also be credited towards your degree.

Entry pathways for Indigenous students

UWA’s School of Indigenous Studies has extensive experience in offering tailored pathways into all undergraduate courses for Aboriginal and Torres Strait Islander people. Pathways include the Aboriginal Orientation Course, UWA Smart Start Course and the Provisional Entry Scheme.

Enabling pathways

Indigenous students with an ATAR below 70.00, mature-age students and students who have not completed Year 12 studies or equivalent are encouraged to apply to one of the School’s enabling (or bridging) courses. These are free courses that are eligible for ABSTUDY and scholarships support.

Aboriginal Orientation Course

The Aboriginal Orientation Course is a one-year course which prepares students for entry into a UWA undergraduate degree in Arts, Biomedical Science, Commerce or Science. Students enrol in a minimum of four units each semester and the choice of units depends on the student’s intended undergraduate degree.

UWA Smart Start Course

This course is offered at UWA Albany and includes most units within the Aboriginal Orientation Course. It is open to Indigenous and non-Indigenous students and prepares students for first-year study in an undergraduate course.

How to apply

Applications for the Aboriginal Orientation Course and UWA Smart Start Course are available from September. All applicants will then be invited to attend an information session, as well as an interview and assessment at a Uni Entry Workshop in early December or late January. There is also a mid-year application round for these enabling courses.

sis.uwa.edu.au/courses/orientation

Provisional Entry Scheme

Indigenous students who have an ATAR between 70.00 and 79.00 and mature-age students with substantial work experience are eligible to apply for entry to an undergraduate degree through the School’s Provisional Entry Scheme. The Provisional Entry Scheme is competitive and applicants are ranked based on their education and/or employment background, interview and written assessment. Students are also required to have met the prerequisites for the course in which they are applying.

There is also a mid-year application round for this scheme.

How to apply

All applicants are required to complete an application form and supply supporting documentation to the School of Indigenous Studies and attend a Uni Entry Workshop in December or late January. Uni Entry Workshops involve an information session, written assessment and interview.

sis.uwa.edu.au/courses/provisional

Scholarships

Indigenous students commencing at UWA are eligible to receive significant scholarships. The School provides extensive guidance and support with applications and advice.

sis.uwa.edu.au/scholarships

There are two categories of applicants eligible under this scheme:

WACE applicants

Applicants must have completed WACE, achieved secondary graduation and obtained an ATAR of 70.00 or above to be considered for entry into a bachelor’s degree in Arts, Biomedical Science, Commerce or Science.

Non-WACE applicants

This category includes applicants who have a good education background which may include TAFE, higher education studies or a bridging course and/or extensive relevant work experience.

sis.uwa.edu.au/courses/orientation
Scholarships

UWA awards more than $6 million of scholarships for coursework students. These scholarships are intended to support students from all walks of life by helping them to succeed in their academic journeys and achieve their full potential while undertaking studies at the university.

We have scholarships under the following categories:

- Prestigious scholarships
- Academic excellence scholarships
- Sporting excellence scholarships
- Residential scholarships
- Regional and remote scholarships
- Equity scholarships
- Indigenous Australian and Torres Strait Islander scholarships

Eligibility is dependent on the type of scholarship you are applying for. Take a look online to see what you are eligible for or contact the Scholarships Office via askUWA to help you with your query.

Prizes

In recognition of outstanding academic achievement, UWA awards prizes annually. These prizes are offered by the different areas of the University and are presented to recipients at an awards ceremony held by the relevant school. Recipients are nominated by the relevant school, based on results achieved in their previous academic year. Please note, unless specified in the prize conditions, students do not need to apply for prizes. To see the different prizes within each area, take a look at what is offered at web.uwa.edu.au/study/prizes. If you are applying to UWA through an alternative pathway, enquire about scholarship opportunities through askUWA.
Undergraduate fees

The Australian Government provides Commonwealth-supported places in courses at UWA for students who are Australian or New Zealand citizens or holders of an Australian permanent resident visa.

Commonwealth-supported students are required to make a contribution to the cost of their course. For Australian citizens, humanitarian visa holders and New Zealand Special Category Visa (NZ SCV) holders who meet the long-term residency requirements, the contribution can be deferred through the Australian taxation system via the Commonwealth Government’s HECS-HELP loan scheme or paid directly to the University. Students who elect to use the HECS-HELP loan scheme do not need to pay any of their student contribution directly to UWA but may, if they choose, make partial payments each fee period.

For New Zealand citizens and other permanent residents of Australia, the contribution must be paid in full, directly to the University. Direct payments do not attract a discount. Further information on eligibility criteria for NZ SCV is available at studyassist.gov.au.

How much is the student contribution?

A course at UWA comprises a number of units. A standard unit is worth six (6) credit points. Full-time students usually study four 6-credit-point units in a semester for a total of eight 6-credit-point units in a year. Fees are billed on a semester basis.

The table below provides indicative costs for various discipline areas. The amount of your student contribution each semester depends on the mix of units in which you are enrolled.

The UWA Student Services and Amenities Fee

The UWA Student Services and Amenities Fee (SSAF) is a compulsory fee that directly benefits all UWA students. The fee is used to develop and provide a range of recreational, sporting and educational facilities together with social, education and representation activities and services. study.uwa.edu.au/fees-scholarships

Postgraduate fees

Fees for postgraduate study are determined by the nature of the course in which you enrol. Different types of degrees are classified under different types of fee structures or loan schemes.

Coursework degrees

Postgraduate fee-paying places (PF-P)

A postgraduate degree is classified as coursework when the dissertation component, if any, is less than two-thirds of the total course. Tuition fees are applicable to a large number of postgraduate coursework programs, and places in these courses are known as postgraduate fee-paying places. A deferred payment loan scheme called FEE-HELP is available under the Australian Government’s Higher Education Loan Program. FEE-HELP assists eligible students who enrol in postgraduate fee-paying courses to pay part or all of their tuition fees.

Commonwealth supported place (CSP)

Some postgraduate coursework degrees have Commonwealth-supported places, meaning the tuition fees for the course are subsidised by the Australian Government so students are only required to pay ‘student contribution’ amounts for their units of study. Students offered a Commonwealth-supported place in a postgraduate degree may be eligible for HECS-HELP. HECS-HELP is an Australian Government loan program to help eligible students in CSPs to defer payment of their student contributions. Comprehensive information regarding eligibility for postgraduate coursework loan programs can be found by visiting studyassist.gov.au.

Australian Government Research Training Program (RTP) for research degrees

A postgraduate degree is classified as a Higher Degree by Research (HDR) if the research component is at least two-thirds of the course. At UWA, Australian citizens and permanent residents, and New Zealand citizens, are exempt from paying tuition fees for HDRs under the Research Training Program (RTP). The RTP is a dedicated pool of funding provided by the Australian Government to support students undertaking research doctorate and master’s by research degrees. Domestic RTP Fees Offset Scholarships provide exemption from payment of tuition fees for up to four years’ full-time equivalent study for a doctorate by research and two years’ full-time equivalent study for a master’s by research degree. Assessment of eligibility for an RTP Domestic Fees Offset Scholarship and allocation occurs automatically in conjunction with an application for admission.

Combined coursework and research degrees

Candidates in some combined courses may be required to pay fees or organise a loan for the coursework component of their combined degree, even though the research component is covered by the RTP for eligible students. If in doubt about your eligibility under the scheme, contact the Graduate Research School at pghelp@postgraduate.uwa.edu.au or visit postgraduate.uwa.edu.au.

Student Services and Amenities Fee (SSAF)

The compulsory Student Services and Amenities Fee is payable by all students enrolled at UWA. Income from this fee funds the development and provision of educational, recreational, social and sporting facilities and activities for the direct benefit of all UWA students. Research degree candidates who have been approved to undertake their research overseas may apply to have their fee waived. Applications are made directly to the Graduate Research School. For more information about the SSAF visit student.uwa.edu.au/course/fees/ssaf.

Living allowance

Some courses have been approved by the Department of Social Services for Student Support Payments. Eligible students can receive one of Youth Allowance, Austudy or the Pensioner Education Supplement. Further information can be found at dss.gov.au/our-responsibilities/families-and-children/programmes-services/student-payments.
