

- Use this worksheet to record your observations while performing the procedure with oil and seeds.
- For each arrangement of electrodes, copy the pattern of seeds onto the diagrams below. When your investigation is complete, answer the questions that follow.

Questions

1. Why are seeds, rather than iron filings, used in this investigation?

.....
.....
.....
.....
.....
.....

2. What features of the seed patterns appear the same for each electrode arrangement?

.....
.....
.....
.....
.....
.....
