

UWA Plus Micro-credentials

Critical Information Summary

Title and brief description	OPTMM510 Anterior and Dry Eye Disease Part 1. The core components of this micro-credential are pathophysiology, diagnosis and management of dry eye disease. Participants will enhance their understanding of anterior eye conditions and implement the latest evidence-based knowledge. In acknowledging the multifactorial nature of dry eye disease, this short course enables practitioners to provide effective patient centred care in chronic disease management.
Certified learning	(1) analyse normal anterior and ocular surface anatomy and the pathophysiology associated with anterior eye disease including dry eyes.; (2) evaluate and differentiate the clinical signs of anterior eye diseases and differentially diagnosis the different conditions; and (3) demonstrate advanced communication strategies to facilitate shared decision making and adherence in chronic anterior eye disease care..
How learner participated	Online only
Effort required (indicative)	75 including ten seminars (each 2 hours); 10 recorded lectures; and independent learning.
Main assessment task	Application of multiple skills to complex problems
Indicative equivalent level	Postgraduate
Industry recognition	n/a
Quality assurance	The quality of UWA Plus micro-credentials is assured through The University of Western Australia's standards and academic integrity processes.
Successful learner earns PD	3
