

UWA Plus Micro-credentials

Critical Information Summary

Title and brief description	OPTMM511 Anterior and dry eye disease – PART 2. The core components of this micro-credential are pathophysiology, diagnosis and management of dry eye disease. Participants will enhance their understanding of anterior eye conditions and implement the latest evidence-based knowledge. In acknowledging the multifactorial nature of dry eye disease, this short course enables practitioners to provide effective patient centred care in chronic disease management.
Certified learning	(1) apply and integrate specific advanced diagnostic workup for diagnosis and management.; (2) develop short and long-term management plans for anterior eye disease including dry eyes.; (3) lead and collaborate with other health professionals in co-management of anterior eye disease; and (4) critically appraise current and emerging evidence to adapt to future changes in anterior eye disease management.
How learner participated	Online only
Effort required (indicative)	75 including five seminars (each 2 hours); 10 recorded lectures; and independent learning.
Main assessment task	Application of multiple skills to complex problems
Indicative equivalent level	Postgraduate
Industry recognition	na
Quality assurance	The quality of UWA Plus micro-credentials is assured through The University of Western Australia's standards and academic integrity processes.
Successful learner earns PD	3
Points for conversion to:	
. Admission to an award course	No
. Credit towards an award course	Yes
. If yes, how much credit?	Credit is less than one unit
