

UWA Plus Micro-credentials

Critical Information Summary

Title and brief description	OPTMM516 Advanced Medical Retina Part 1. The core components of this micro-credential are clinical understanding of common retinal diseases, using and interpreting advanced imaging tools, strengthening diagnostic accuracy and management strategies and engagement with current and emerging research. By the end of this short course, practitioners will be prepared to deliver high-quality, evidence-based retinal care.
Certified learning	(1) apply and interpret advanced diagnostic techniques and instrumentation relevant to posterior eye disease; (2) recognise and differentiate the clinical signs of retinal conditions to support accurate diagnosis; and (3) implement evidence-based strategies for managing posterior segment diseases such as age-related macular degeneration and diabetic retinopathy.
How learner participated	Online only
Effort required (indicative)	75 including ten seminars (each 2 hours); 10 recorded lectures; and independent learning.
Main assessment task	Application of multiple skills to complex problems
Indicative equivalent level	Postgraduate
Industry recognition	n/a
Quality assurance	The quality of UWA Plus micro-credentials is assured through The University of Western Australia's standards and academic integrity processes.
Successful learner earns PD	3
Points for conversion to:	
· Admission to an award course	No
· Credit towards an award course	Yes
